## FEATURES AND HIGHLIGHTS

### Technical parameters

|                            |                     |
|----------------------------|---------------------|
| ▪ External Size (LxWxH)    | 1860x690x460-910 mm |
| ▪ Back Plate Upward Fold   | ≥80°                |
| ▪ Back Plate Downward Fold | ≥50°                |
| ▪ Leg Plate Upward Fold    | ≥65°                |
| ▪ Leg Plate Downward Fold  | ≥45°                |
| ▪ Bearing Capacity         | ≥150kg              |
| ▪ Headrest Hole            | 150 mm              |
| ▪ Input Voltage            | 110-230v            |
| ▪ Output Power             | 24W                 |

### Technical configuration

|   |      |
|---|------|
| <input checked="" type="checkbox"/> Motor           | 1pc  |
| <input checked="" type="checkbox"/> Pillow          | 1pc  |
| <input checked="" type="checkbox"/> Gas Spring      | 2pcs |
| <input checked="" type="checkbox"/> Brake Pedal     | 4pcs |
| <input checked="" type="checkbox"/> 3" Double Wheel | 4pcs |
| <input checked="" type="checkbox"/> Manual Operator | 1pc  |

### Optional

|  |     |
|--|-----|
| <input type="checkbox"/> Bed Surface Foot Lift | 1pc |
| <input type="checkbox"/> Roll Up Tissue Holder | 1pc |

### Bed Frame

The bed frame surface is painted with 1.5mm powder coated steel, and welded by Panasonic Robotic seamlessly. Strong corrosion resistance, environmentally-friendly, bright surface, maintain an overall beautiful appearance. With this structure, the whole bed maintains more stable and makes patients feel more safe.

### Mattress

The bed platform is integrally made of the high-end composite leather and hand-made cotton mattress, of which the curve design is ergonomic, elastic and soft, breathable, environmentally-friendly, easy to be cleaned, anti-bacterial, impact-resistant.

### Pneumatic Pole Support

Two air springs are equipped on the back and legs to provide users with a quiet and safe environment during diagnosis and avoid interference.

### Control System

CE certified linear actuator motor, one-button free lift, low noise, and long service life. Manual (foot control) electric overall lifting, manual back-rest lifting, leg-rest lifting adjustment, height adjustment.

### Hand Controller

The bed is equipped with Hand-held controller, so that the optimal height is easy to be adjusted by pressing the single button gently. The hook on the back is convenient to take down for patients and nurses.

### Bed foot equipment

Equipped with 4pcs 3-inch double-sided wheels, 2 functions side brake with 4 pedals, which are convenient to move and fix. The design of 360° rotating pulley made of polyurethane PU is strong, durable, non-slip, strong in pressure resistance, and good in stability.

### Assorted Pillow

The neoteric design of the pillow is narrow on the top and wide on the bottom. Its well-shaped and elegant design matches with modern aesthetic ideas and can blend into the environment harmoniously. Pillow can be disassembled according to demand.

### Round Covered Edge

The bed platform was covered in 360°. The soft-touch of surface would be safer for users.

### Design

Bed surface two fold three ergonomic design, adjust the height according to the patient's height, personalized design help diagnosis. Dual use of bed and chair, high bearing lasting stability, no fear of heavy pressure impact, to ensure safe use.

As the circumstance of printing, the photos might have minor difference on color, tactile from real products.  
As the update of design and improvement, parameters and outlook of products might change, thanks for understanding.
